
MM01 English Explorers - Language Beyond Limits

"English Explorers – Language Beyond Limits" is the ultimate class for students who love English and enjoy exploring the boundless possibilities of language. This course is designed for curious minds who relish word puzzles, debating, storytelling, and creative expression in writing and speaking. It's where fun, creativity, and a healthy dose of challenge come together to help you see English in new and exciting ways.

In this class, you'll engage with English like never before. Each meeting, we'll dive into a fresh and exciting theme. Through hands-on activities, collaborative projects, and creative challenges, you'll develop not only your language skills but also your ability to think outside the box.

We will experiment with storytelling, poetry, debating, improv theater and fiction and you will get a chance to develop your ability to express ideas with clarity, creativity, and confidence, whether it's in writing, speaking or performing. Explore how language can inspire, entertain, and persuade.

Engage in group activities and friendly competitions that allow you to connect with others while enhancing your skills.

We will meet once a month on a Friday afternoon at Bodensee-Gymnasium Lindau. Each session will feature a mix of activities. We'll also explore different forms of English expression, from classic literature to modern pop culture or spoken word poetry, giving you a broad and dynamic perspective on the language.

This class isn't just about learning—it's about doing. By the end of the course, you'll have a portfolio of creative projects you can be proud of, as well as sharpened skills in language and expression.

Whether you aspire to be a writer, a communicator, or just a lover of language, this course will inspire you to take your passion for English to the next level.
